How can this instructor's teaching be improved? (Please type one idea in each box below.) More transparency in grading exercises - to be quite honest, it was a shock to see the numerical raw score on some of my assignments. Even with the understanding that the scores would be adjusted, there was still a lot of confusion in how exactly points were awarded (or not).

What skills or knowledge did you learn or improve from this instructor?

Nate was a fantastic TA!! He was always willing to help me when I was struggling and was the reason most of us learned in the class. Almost all of us completely ignored the material from the professor and just used Nate's notes.
